**Plagiarism and Cheating:** Plagiarism is the use of someone else's work and reporting it as your own, or the giving of your work to another student to use as their own. Both instances are considered cheating and will not be tolerated. Any assignments that are plagiarized, or copied will not be accepted and the student using the copied work as well as the original author of the work (if the cheating is "peer to peer") will both receive a zero for the assignment and may both face additional consequences at the school level in accordance with the MRHS Student Handbook. There are also strict "no talking" and "no technology access" during all assessments (tests, quizzes and final exam). Any violation of these policies, regardless of the reasons/motives will result in the assessment being confiscated and a score of zero entered into the grade-book on the assessment. In addition, consequences at the school level may also occur in accordance with the MRHS Student handbook.

### **AI Statement**

In the Deer Valley Unified School District, we are committed to providing our students with the best possible education while ensuring their safety, privacy, and well-being. As part of our ongoing efforts to enhance learning experiences, teachers may incorporate generative Artificial Intelligence (AI) in the classroom for students.

Students must adhere to the specific guidelines provided in the assignment details. If no guidance around the use of generative AI is provided, students should follow the "restrictive" level (see chart). Teachers should direct students to contact their teacher before submitting classwork if the student is unsure if the tool or website they are using is permitted on a specific assignment.

### **Daily Device Use (Chromebooks)**

Students should come to school with their Chromebooks charged and ready to use in each class every day. Devices may not be used to record or take photos of other people without their consent. Consequences for classroom disruptions and misuse of devices will follow a progressive discipline model, beginning with a phone call home and progressing to office referrals for repeated or more serious offenses. See the Student Rights and Responsibilities consequence chart in the handbook for more specific descriptions of infractions and consequences.

### **MRHS Laboratory Breakage Policy**

The Mountain Ridge Science Department has a policy regarding the damage or breakage of laboratory equipment. In the event a student breaks any laboratory materials, that student will be responsible for paying the replacement cost of each item. A complete list of all laboratory materials and their costs are posted in each classroom. The students are taught proper procedures and laboratory etiquette to ensure

the safety of our students during lab activities. This policy helps hold the students accountable for their actions and reinforces careful laboratory procedures.

**Suggested Materials:** Some sort of paper in an organized binder for which notes can be written and kept for frequent reference. A way to organize and keep handouts, pen and pencil and a basic function calculator are essential materials to have access to. **If you have any issues obtaining these materials, contact me immediately.**
