

Reading Intervention (2nd Grade) - Week 4

Skill	Directions
Phonics Sound Boxes	Have students point to each phonics sound box and say the sound(s) the team of letters make.
Nonsense Word Fluency (Phonics Decoding)	Students needs to point to each word and read it fluently. If the student struggles to accurately read the word, then prompt the student to identify the vowel sound prior to reading the whole word.
Multisyllabic Words	Have students apply their decoding strategies to read the words. Student may underline the vowels in the words and break the words apart by syllables/word chunks.
Sentence Fluency	Have students independently read the sentences daily until they can read them fluently.
Fluency Passage	Research has shown that improved fluency supports comprehension of text and leads to better overall readers. Please have your student read this passage aloud daily. There is no need to time the student. The goal is not about reading the passage as fast as he/she can. The students need to strive to read the passage with accuracy, in phrases and with expression. Maybe pretend to be a newscaster while reading.

Text Application

They could hear the sound of something bouncing off the car. It was hailing! They heard a screeching sound, which they realized was a snapped branch of a beech tree scraping on the tin roof. As the boys were looking out the window, they saw the breaking branch come pounding to the ground right at the same spot Mr. Fielding had stood. They were all relieved that the scouting leader had made it inside safely. Mr. Fielding has come in just in time.
