

KEY CONCEPT OVERVIEW

D t t t t t t t t 1,000 t t t t t

t t t t t t t t t

t 1,000 t 1,000 F t 41 - 29 t

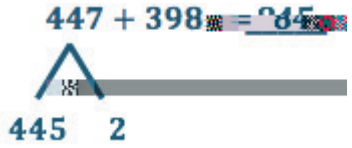

C t t t t t t t 42 - 30 = 12 t t

t t t t t t 1,000 t t

SAMPLE PROBLEMS (From Lesson 7)

1. 447 + 398 t t t t

447 + 398 = 845

44 ⁺³ → 47 ⁺² → 49 ⁺³⁰⁰ → 300 ⁺⁴⁰ → 340 ⁺⁵ → 345 445 + 400 = 845

2. F t t t t

It is much easier for me to solve with a number bond because 398 is only 2 away from the next hundred. The arrow way takes a long time, and I have to make sure I don't miss any parts of the number 398. The number bond has fewer steps!
